

A. Daniel Martin

PhD Student, University of Granada

📍 Granada, Spain ✉ damartin@ugr.es 🌐 damartinr ^R Daniel Martín 🆔 000-0002-5839-073X

Profile

Daniel Martin is a PhD student in Moral Philosophy at the University of Granada. His research explores how people make moral decisions and how perceptions of norms and moral relevance shift across contexts—particularly in relation to animals, the environment, and emerging technologies. His work bridges psychology, experimental philosophy, and legal reasoning, with a strong focus on the moral circle and norm compliance. He has experience in experimental design, data analysis, and interdisciplinary collaboration, and has presented his work at international conferences. Daniel is especially interested in the social and cognitive processes that shape moral judgments and in applying these insights to policy and public discourse.
